Cut lengths of wool, put sticky tape around the ends of them or use old shoelaces. Use a hole punch to make holes in the shoes from Craft Sheet 1. Kids colour the shoes. Then thread the wool through the holes. Help them to tie it together. Glue the shoe to Craft Sheet 2 Kids can colour this page too.

**GAME****Obstacle Course**

Create the obstacle course for your kids to follow. Eg hoops on the ground for them to jump in; crawl through a tunnel; around a chair; balance on a rope on the ground etc. The course finishes when they get to a designated area, called 'home'. Go through the obstacle course again. You could make it harder - eg they have to go sideways/backwards.
